Daily Job Sheet — Insurance Lead CRM

Your whole job: email a list of insurance agencies every day, track replies, send the payment link when someone says yes. ~15–20 min/day. No experience needed.

FILL THESE IN BEFORE DAY 1 (OWNER: PETER)

Gmail login	user: _____ pass: _____
CRM Google Sheet link	_____
Stripe payment link	_____
Price to quote	\$ _____ / week (flat, cancel anytime)
Company name + address	Equity Craft LLC, 728 McSwain Rd, Shelby, NC 28150 (set in the email footer)
Who to message with questions	Peter — peter@equitycraftllc.com

THE DAILY LOOP — DO IN ORDER

1. **Open the Sheet.** Click the `stage` column header → sort so **New** rows are on top. Then sort those by `lead_score`, highest first.
2. **Pick today's 25.** Take the top 25 rows still marked **New**. (Never more than 30/day — it protects the email account.)
3. **Send with YAMM.** Gmail → Extensions → Yet Another Mail Merge → Start. Pick the **"Insurance — Email 1"** template, select those 25 rows, Send. YAMM auto-stamps `date_contacted` and flips them to **Contacted**.
4. **Check the inbox for replies.** For each reply, set the `stage` dropdown:

"Interested / tell me more"	→ Negotiating , type "send pricing + link" in <code>next_action</code>
"Stop / not interested / unsubscribe"	→ Unsubscribed same day , never email again
Angry / complaint / legal threat	→ Unsubscribed + escalate (see box)

5. **When someone says "yes":** reply with the price + Stripe payment link. When Stripe shows **paid**, set `stage` = **Won** and put the weekly price in `weekly_value`.
6. **Follow-ups (YAMM does the writing):** no reply after **3 days** → send "Email 2". No reply after **7 days** → send "Email 3", then set **Lost**.

Stage path: New → Contacted → Replied → Negotiating → Won (or Lost / Unsubscribed)

WHAT "DONE FOR THE DAY" LOOKS LIKE

- 25 new agencies emailed (or all remaining **New** rows if fewer than 25 left).
- Every reply in the inbox has its `stage` updated — no reply left unsorted.
- Every "stop" is marked **Unsubscribed**.
- Any "yes" got the Stripe link the same day.
- Due follow-ups (3-day / 7-day) sent.

HARD RULES — NEVER BREAK

- **Max 30 emails/day** from the account. More can get it banned.
- **Honor every "stop" the same day.** Zero exceptions.
- **Never delete rows.** Only change the `stage` dropdown and the note columns.
- **Don't change the email wording** or the footer/address.
- **Don't promise anything** not in the email (no custom deals, discounts, or claims).

ESCALATE TO PETER — DON'T ANSWER YOURSELF

- Anyone mentions **lawyer, lawsuit, "report you," or spam complaint**.
- A reply asks something **not covered by the email** (custom pricing, contracts, data questions).
- Gmail shows a **warning, send limit, or "suspicious activity"** notice.
- Someone **pays** but you're unsure what to do next.
- You run **out of New rows** to email.

Source of truth: `MASTER-CRM.csv` (580 contacts) → imported as the Google Sheet. Templates live in `cold-email.md`. If anything here disagrees with what you see on screen, stop and ask Peter.

YAMM Email Templates — Insurance Lead Feed

Three emails. Email 1 leads with 25 free leads (the strongest hook); Email 2 nudges on price; Email 3 closes out. Paste each into a Gmail draft, then point YAMM at it. Email 1 goes to new contacts; 2 and 3 send only if there's no reply.

BEFORE YOU SEND — 2 THINGS TO SET

- **Footer is set** (Equity Craft LLC · 728 McSwain Rd, Shelby, NC 28150 · opt-out line). Required by CAN-SPAM — leave it on every email, don't edit it.
- **Attachment:** attach the masked sample — `trucking-leads/samples/TX-teaser.csv` (default; bigger market) or `permit-leads/samples/contractor-teaser.csv` if the agency looks contractor-focused.

Merge tags below match your CRM columns exactly: `{{company}}` = agency name · `{{city}}` · `{{state}}`. YAMM fills these from the sheet automatically — leave them as-is. (There's no first-name column; greeting is agency-level, which is normal for B2B.)

EMAIL 1 — INITIAL (DAY 1) · THE "25 FREE" OPENER

Subject: New-authority leads in {{state}} — the week they register

Hi {{company}} team,

The carriers who need commercial insurance most show up in the FMCSA registration feed the week they file for authority — before they've picked an agent. I pull that list daily, scrub it for working phone + email, and score it. {{city}} and the surrounding area had a solid batch this week.

Let me send you 25 free to try. A small masked sample is attached so you can see the quality — reply and the unmasked 25 are yours today.

- Trucking: carriers that got MC/DOT authority in the last 7 days — legally required to insure, actively shopping.
- Contractors: companies pulling building permits this week — need GL + workers-comp now.

Best,
Peter Anderson
Equity Craft LLC · 728 McSwain Rd, Shelby, NC 28150
Unsubscribe: reply "stop" and you're off the list.

EMAIL 2 — FOLLOW-UP (DAY 3 — ONLY IF NO REPLY) · THE PRICING NUDGE

Subject: Re: New-authority leads in {{state}} — the week they register

Hi {{company}} team — following up on the 25 free {{state}} leads I offered. One closed policy from these usually pays for months of the feed, so it's worth a quick look. After the free batch it's a flat weekly rate, cancel anytime. Reply and today's masked sample is on its way. Reply "stop" to opt out.

— Peter
Equity Craft LLC · 728 McSwain Rd, Shelby, NC 28150

EMAIL 3 — BREAKUP (DAY 7 — ONLY IF NO REPLY, THEN MARK LOST)

Subject: Closing the loop, {{city}}

No worries if the timing's off — I'll stop here. If you ever want first dibs on new {{state}} carriers/contractors before they pick an agent, just reply. Reply "stop" to opt out.

— Peter
Equity Craft LLC · 728 McSwain Rd, Shelby, NC 28150

SEND RULES (DON'T SKIP)

- 20–30 emails/day from one inbox. Never blast all at once.
- Real physical address + working opt-out in EVERY email.
- Honor every "stop" the same day — one complaint chain can burn the domain.
- Don't change the wording. If a reply asks something the email doesn't cover, escalate to Peter.
